## Course Description

---

Brush up your scientific and medical writing skills. Learn how to structure scientific papers and reports and write a clear and informative scientific text. This course provides a comprehensive overview of the strategic scientific and medical writing field and offers hands-on training in writing and analyzing scientific texts.

The course will be conducted in English.

## Course Program

---

This course will cover:

- What is the correct strategic approach to writing successful documents
- How to convey a message to the target audience
- How to produce high-quality documents
- What are the requirements to reach a successful outcome
- Ethics of scientific writing
- Practical work with multiple exercises

## Learning Outcomes

---

By the end of the course, students will be able to:

- Know key elements of good medical and scientific writing
- Critically appraise texts and identify elements of poor writing
- Convert some examples of poor writing to good scientific writing
- Reproduce the most important aspects of good medical and scientific writing
- Improve own texts

## Course Faculty

---

Dr. Silvia M. Rogers, MEDIWRITE, Basel, Switzerland

## Target Audience

---

This course is for all professionals (native or non-native English speakers) who intend to improve their scientific medical writing skills.

## Course Credits

---

The course including homework provides 1 ECTS credit. 100 FPH credit points in hospital pharmacy (accreditation to be submitted)

## Course Date and Venue

---

April 28–29, 2022  
University of Basel

## Course Fee

---

Course fee including certificate, electronic course material, book by Silvia Rogers, lunch and coffee breaks is 1400 CHF.

A reduced fee applies to participants from academia and non-profit organizations.

In case of cancellation, refund of fee will be given if cancellation is received in written format ([ecpm@unibas.ch](mailto:ecpm@unibas.ch)) before the deadline for registration, after this date no refund can be given.
