September 27–28, 2021

ADVANCED STUDIES

Course Description

Brush up your scientific and medical writing skills. Learn how to structure scientific papers and reports and write a clear and informative scientific text. This course provides a comprehensive overview of the strategic scientific and medical writing field and offers hands-on training in writing and analyzing scientific texts.

The course will be conducted in English.

Course Program

This course will cover:

- What is the correct strategic approach to writing successful documents
- How to convey a message to the target audience
- How to produce high-quality documents
- What are the requirements to reach a successful outcome
- Ethics of scientific writing
- Practical work with multiple exercises

Learning Outcomes

By the end of the course, students will be able to:

- Know key elements of good medical and scientific writing
- Critically appraise texts and identify elements of poor writing
- Convert some examples of poor writing to good scientific writing
- Reproduce the most important aspects of good medical and scientific writing
- Improve own texts

Course Faculty

Dr. Silvia M. Rogers, MEDIWRITE, Basel, Switzerland

Target Audience

This course is for all professionals (native or non-native English speakers) who intend to improve their scientific medical writing skills.

Course Credits

The course including homework provides 1 ECTS credit. 100 FPH credit points in hospital pharmacy (accreditation to be submitted)

Course Date and Venue

September 27–28, 2021
University of Basel
